Published for you	✓	✓	✓

* with optional video plan

How It Works

- #1 Onboarding Session** — you'll meet with our strategy team to agree on a roadmap and to make sure we craft content that aligns with your company's voice, aesthetic, and goals.
- #2 We Get to Work** — with a strategy in place, your dedicated Social Media Manager (SMM) will create your first batch of social media content, including images (or video) and copy adapted to each social media network.
- #3 Feedback & Approval** — utilize the client dashboard to send feedback on each post, ask for changes or approve what we created. Within 72 hours, we'll respond to your feedback and revise all content.
- #4 Scheduling & Publishing** — we don't just create your content — we make sure it's published on an agreed schedule, always on time, and on each of the social platforms you've selected.
